PT Combi Logistics Indonesia Indonesia

PT. COMBI LOGISTICS INDONESIA

Airfreight - Seafreight & Third Party Logistics Service Provider

PT. Combi Logistics Indonesia is a true locally owned and operated Freight Forwarding Company. The company was established as PT. Combi Freight in August 1991 by Arman Yahya and two employees. They were supported by 100 tons of dreams to be a local company that catered all the

needs of the air, ocean, sea & air transportation services for export and import - all under one roof. At that time there was not a single local company that covered the whole range of transportation services in our market place.

We are very proud to let you know that within the first 2 years, we were able to achieve that dream. We are recognized by the industry by having our IATA license for airfreight and sea freight FCL, plus we have regular freight consolidation containers to some parts of the world and we are a full NVOCC operator – freight consolidator. As the local company we know the local conditions, rules and regulations, on top of our foreign owned competitors, and we will not be leaving for any reason.

In May 2007, PT Combi Freight changed its name to PT Combi Logistics Indonesia to cope with the market changes, as we were expanding beyond the hard freight to the logistics world. Today, the head office in Jakarta is supported with 57 full time employees covering the whole area of Indonesia. This also covers our office at the Jakarta airport, Semarang in Central Java and Bandung in West Java. Surabaya, as the second largest city after Jakarta, will be fully operation by the end of this year. However, our freight forwarding license and our ability as being known by the local people allows us to operate and cover the whole territory of Indonesia.

As our company keeps on growing so does our International networking. Combi works with agents and business partners with the same principles that we have.
