XPand Logistics Celebrates 20 Years!

XPand Logistics Ltd Celebrates 20 years!

Established in June 2000, Xpand Logistics Ltd is celebrating its 20th year of operations as an independent UK Logistics provider.

In the early days we were known as X-Pand International Freight Ltd which focused primarily on air freight movements, both export and import, as customs agents. The company grew rapidly and our base of customers and overseas partners asked that we “expanded” our products into Ocean Freight, Warehousing, Third Party Logistics and Exhibition Installations. In 2018 it was decided to change the name to XPand Logistics Ltd to reflect the wide range of services that we now offer.

With a team of 70 staff and six facilities in London, Manchester, Basildon and Glasgow, we are recognised as one of the truly independent UK logistics providers.

The past 20 years have not been without their challenges and we are proud that during this time we have grown significantly in a very competitive and volatile market. Further challenges lay ahead in these difficult times, but we are well placed to meet these, and continue to support our customers and partners.

Our customers, partners and of course our loyal staff have made this achievement possible and we thank you all.

David Osborn
Director

+44 (0) 1784 431 081 info@xpandlogistics.co.uk www.xpandlogistics.co.uk

**WorldRoad Express Nominated for
Thanks-To-Challenge!**

Hello, this is WorldRoad Express Co., LTD. We thank our VIP customer who nominated Worldroad Express to participate in the thanks-to-challenge. We would like to express our sincere gratitude to the (all the medical staff in the world or our medical staff) fighting frontline during this pandemic. They are the reason why we can go about our peaceful daily life. The hand gesture in the picture means "I respect you" in sign language.

Hope we overcome this difficult periods with our effort!

#thanks-to-challenge #WorldRoad Express #Korea

Best regards
 H.Y. Hwang
 President of WorldRoad Express

**USI Partnerships MAKE this Organization!
 MTA & DOT Prove That is True**

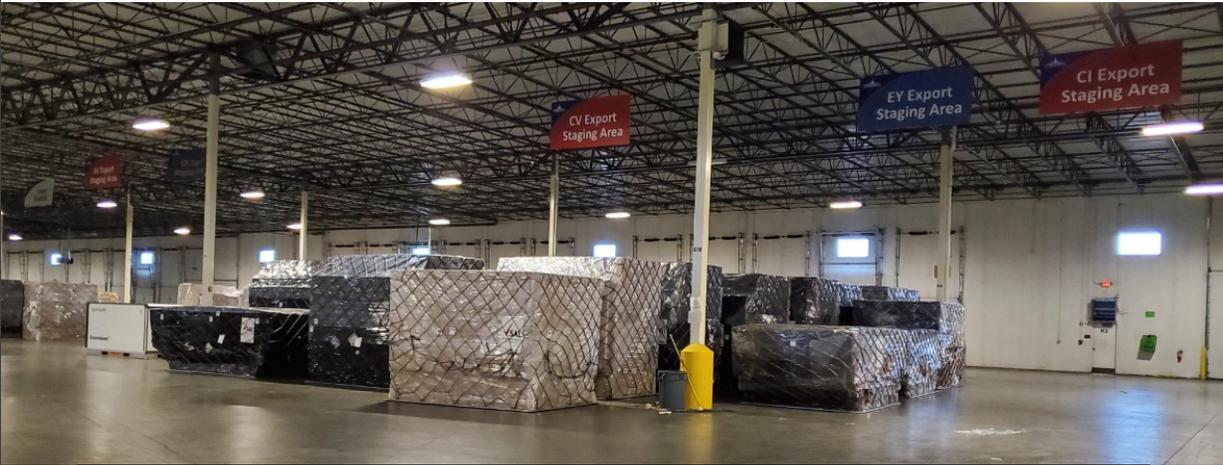

“Local People. Worldwide Trust,” couldn’t hold more true today than ever. Throughout these unprecedented times with Covid-19 and accepting the

challenges of social distancing, we have found that our duty as logistic professionals has brought our partnerships even closer.

Because of the collective efforts from Amanda Wu, the Air Export Team at Delivery On Time, and our team at Midwest Transatlantic Lines, LLC; Mike Schneider (Business Development), Mary Lou Briant (Air Import), and Robert Gareau (Air Export). We have worked closely with CargoLux and Cathay Pacific, chartering two 747 Freighters of PPE equipment from Hong Kong to Rickenbacker Airport in Columbus, OH.

This seamless effort of late night video conferencing and long weekends has allowed our customers to meet the demand of sourcing PPE's to frontline efforts in battling COVID-19.

We applaud our teams on both sides of the Pacific!

Israeli life sciences industry

The Israeli life sciences industry is highly vibrant and dynamic. This is evident in the number of companies that have been founded in the last decade, capital raised by companies in the industry, changes in the sizes of deals, and the diverse company development stages in which investments are made.

The industry engages in diverse and professional research, as is evident from the extent of academic publications in the field.

Between 2007 and 2016, the number of life science companies in Israel grew significantly reaching a total of 1,351 companies.

To see ISLINE's full presentation, click the photo!

Please find attached our Pharma Presentation. Last year we have been audited and approved as a GDP provider by an independent UK audit house. Israeli regulations do not require GDP certification for FF, because we service international Pharmaceutical companies we voluntarily took this task and passed.

2020 has been off to a challenging start and we would like to share some news and success stories from this challenging period:

Charter Flights: with the shutdown of air travel, moving things by air became very challenging. ISLINE has operated several charter flights from china to

Israel using cargo and passenger planes to move much needed medical supplies as well as other good quickly from china to Israel.

Drop Shipments: following this success we have operated several large Drop shipments from china to Africa as well as other destinations, building on our excellent contacts with suppliers and agents.

Recruitment: we have used the opportunity to hire new staff, yes hire! While many companies have chosen to tighten their operations we have decided to expand. We have hired new experts from a leading COO to may capable operators and account managers.

IT: like many around we have upgraded our it capabilities to work better from home or on the move. We have been able to create more atomization, less paper and more availability of the team and systems to the end client. This is something we will continue to vigorously pursue and improve.
