United Shipping Board of Directors Election

There are two (2) seats that are up for election at the Shareholder's Meeting on May 18, 2020 in Cancun, Mexico.

The deadline for placing your name on the ballot is Friday, April 17, 2020

The United Shipping boards of directors currently consist of 7 members and the following 1 member has decided to be considered for re-election:

- Bill Hromada (up for re-election)

Here is more information to all of you about the function of the board of directors and what will be expected of you in the event you are elected.

The role of a Board Director entails the following:

1. Attending the annual shareholder meeting held in conjunction with the annual worldwide meeting. However, if a Board member is not a shareholder they do not attend the shareholders meeting.
2. Attending all board of directors' meetings, usually twice a year.
3. Being available for board of directors' conference phone calls.
4. Serving as a Personal Representative for the Board of Directors ("PRBD") maintaining contact with approximately 10 to 15 members of United Shipping.
5. Reviewing and responding to all emails relating to new members, MLGP claims and other board business.
6. Reviewing and approving budgets and financial statements for United

Shipping.

7. Understanding that as a director of United Shipping, your role is to act in the best interests of United Shipping and not of any individual member.

The position of director is held for a three year term and will usually require several hours of your time each month in addition to attending the meetings I have listed above. Also, please be advised that if board meetings must be held in between worldwide meetings, some of your expenses will be paid by United Shipping.

All of us involved with United Shipping encourage new and fresh ideas and for that reason we encourage you to submit your name for election to the board of directors along with your bio to gregt@unitedshipping.com.

Dominoes Falling in Global Shipping as Coronavirus Continues to Grip China's Economy

*Submitted by Renzo Bevinetto,
IFC Global Logistics*

The Telegraph stated, "Container shipping from Chinese ports has collapsed since the outbreak of coronavirus and has yet to show any sign of recovery, threatening weeks of chaos for manufacturing supply lines and the broader structure of global trade.

Almost half of the planned sailings on the route from Asia to North Europe have been cancelled over the last four weeks. A parallel drama is unfolding on routes from the Pacific Rim to the US and Latin America.

Lars Jensen from SeaIntelligence in Copenhagen said the loss of traffic is running at 300,000 containers a week. This will cause a logistical crunch in Europe in early March even if the epidemic is brought under control quickly. To continue reading The Telegraph's article, please click [here](#).

Coronavirus Update from Delivery on Time

To hold the situation from Coronavirus, our CDC announced for visitors/residents from following countries are to be self-isolated 14 days: China, Hong Kong, Iran, Italy, Japan, Korea, Macau, Singapore, Thailand, & Vietnam.

China is having similar rules about self-isolation. For a person like me to visit China, I will have to lock myself in my apartment for 14 days, and after visit to China, back to Taiwan, I will have to do that again for 14 days. Currently people here do stop trips to overseas as much as we can or visit new customers locally.

Speaking the affection to logistics in China, we can see :

1. the factories are not fully operating so far,
2. truckers are not freely entering the manufacturers premise
3. the shipping companies/freight forwarders are only having minimal employees working in the offices.

Most of the factories in Taiwan are importing components/raw materials from China, because of the slow delivery from China, some of industries are facing difficulty to complete the production.

Masks was one of the problem, with good flexibility we have in Taiwan, we now can buy that from pharmacy, the factories extend production lines for the needs in Taiwan. We had a joke in few weeks ago about the masks. In the past the robbers most of time would wear mask for money, now they rob the mask with money. That was pretty much the fact we had earlier about finding masks.

Under these circumstance, all of us won't have profitable months for February /March. We are expecting 50% back to normal within next 2 weeks, though the CDC in China said people can stop wearing mask in late April, except people in Wuhan.

International started with a focus on worldwide NVOCC freight forwarding and a passion for networking and customer service. Over the last 35 years we've grown to become a powerful global company servicing the needs of international clients as well as the North American domestic trucking market. Today, Brent's son, Jason Fowler leads the company with the same passion and commitment to our customers.

We are excited to announce our recent expansion into the North American markets with the addition of Jody Christensen and William Benfield to our team! Jody will manage our domestic FTL and LTL program while William will develop and operate our west coast market. With his background in compliance, operations, and customs house broker's, license he offers unparalleled service. We are excited at the capacity they add to our services!

Together, Air & Sea International, Freightlink and Intermountain CHB offer true one-stop shopping to our partners and customers.
