NETWORK NEWS

A GLOBAL INFORMATION SOURCE FOR FORWARD THINKERS

In Memorium

Walter Haverhals, one of the original members of United Shipping, passed away last week. Walter was 70-years old. Walter passed away in his sleep on November 14, 2018. Walter had been battling a brain tumor for some time, but is now at peace.

Walter is survived by his wife Marianne, his three children, Tom, Jim and Sophie and their spouses, and his grandchildren.

Walter was an amazing man, who influenced and helped so many people in this industry. He mentored and encouraged many of our members over the years. Please take a moment and pray for comfort and healing for his family. The funeral will be on Friday, November 23 at 10:30 in Brasschaat, Belgium. A reception will follow with the scattering of his ashes afterward.

Rate Filing Helpful Hints

- You cannot file brand names. When submitting a rate filing, make sure you are listing what it is, rather than who manufactured it.
- You cannot file vague descriptions - our Tariff service is very particular about this. Instead of 'Spare Parts' you should use something like 'Automotive Spare Parts.'
- Ports - You must make sure you are listing the US/Int'l Port City - not just the final destination. We always need to know where your shipment ports at.
- You see that nice TLI Number that generates when you file a rate? It's right there. Looks nice, right? Make sure you are putting that handsome little devil on the appropriate Bill of Lading.

UPS - Are You Interested?

US partners are you interested in saving money on mailing/courier costs? United Shipping, Inc offers discounted rates up to 50% off the published rates to its partners. You have your own log in and setup. It's super simple and you can even get free supplies shipped right to your office! If you would like more information on our UPS program, contact the Corporate Office today for more details!

Partner Spotlight

Silver Freight Logistics SRL - Argentina

We are an international freight transportation agency that was born with the purpose of providing an integral service, which includes agility, communication and efficiency. The essence of the business has been developed under the scheme of obtaining the best benefits in terms of air and maritime rates, minimizing operating expenses without affecting the quality of service. We are representatives of numerous cargo agencies in America and Europe, as well as in the East and Oceania, which has made us an attractive partner for those who need a serious company, to answer for their shipments in this part of the world. Thanks to the commitment of our team, we have become a solid and fast growing company!

We are an expert in comprehensive logistics committed to providing peace of mind and confidence in the transport of international cargo, so that our customers can focus on their business. Our vision? To be the leading international logistics

company in Argentina!

Our objective? Our main goal is the tranquility and satisfaction of the client, who not only choose us for service and rates, but also feel comfortable working with us.

Check Out Silver Freight's Website

"Silver Freight is the official freight forwarder of all the chain of airports in Argentina. And we handle all the gangway imports to Argentina for several of the main airports around the country. This gangway was unloaded in the Airport of Comodoro Rivadavia in Patagonia. It would be impossible for us to do it so professionally without the great job of our partners of United Shipping. All the people involved in this operation were completely delighted with the performance of our service during the all handling."

Shippers Assess Potential Brexit Deal or No Deal

Shippers and forwarders are trying to assess both the impact on trade of the Brexit deal currently on the table, as well as the consequences to the UK leaving the European Union on March 29, 2019, without a deal in place. To read The JOC's full article, [click here!](#)

China to US West Coast Space Set to Tighten

Eastbound trans-pacific spot rates to the US East Coast may have risen unlike

those to the opposing coast, but the importers should expect a reverse trend in the coming weeks since shipments won't beat the United States' Jan 1 tariff deadlines unless they are routed to West Coast ports by early December. To read The Joc's full article, [click here!](#)

China Developing Xinjiang Airport as 'Belt and Road' Air Cargo Node

Today, China's state planner approved a US\$6.1 billion airport expansion project in Urumqi, capital of China's far-western Xinjiang province, which will help develop the city into a key air cargo hub in President Xi Jinping's sprawling "Belt and Road" initiative.
